WRIGHT RICKMAN

Front End Development • UX Engineering & Design • Data Visualization

A Front End Developer with a background in User Experience Engineering and Design. Specializes in data visualization, accessibility, and usability.

Experience

Software Engineer
Clearing • *Sep. 2021 – Mar. 2023*
- Played a key role in developing the website, mobile app, and CMS for a Telehealth company focusing on opioid-free pain care.
- Prioritized accessibility and usability for users with chronic pain and mobility issues.
- Developed data visualizations to enable clinicians to monitor patient progress.

Front End Developer (Freelance)
Agency: Millennium Communications • **Client:** JPMorgan Chase
Sep. 2020 – Mar. 2021
- Developed an interactive webcomic that used animation to teach financial literacy to teens, while complying with WCAG 2.1 accessibility guidelines.

Front End Lead
Gartner L2 Inc. • *Jun. 2015 – Sep. 2020*
- Crafted interactive data visualizations that empowered clients to gain insights, analyze complex datasets, and benchmark their performance against industry rivals.
- Spearheaded the development and maintenance of the company's website while leading a team of developers.

Front End Developer/UX Designer
BeenVerified Inc. • *Jan. 2015 – Jun. 2015*
- Designed and developed user signup and onboarding flows, ensuring a seamless user experience.
- Guided pages through rapid A/B testing to optimize user engagement and increase conversions.

Front End Developer (Freelance)
Agency: Resource/Ammirati • **Client:** Vibram Shoes
Sep. 2014 – Oct. 2014
- Client: Vibram Shoes. Prototyped a proof-of-concept site in HTML, providing the client with a tangible preview of their website design.

Front End Developer (Freelance)
Agency: Narrative Marketing • **Client:** Def Jam Records
Aug. 2014 – Sep. 2014

Lead Content Editor
Huge Inc. • *Mar. 2012 – Jul. 2013*
- Spearheaded a change in data gathering methodology backed by my statistics analysis. This led to an 87% increase in accuracy, saving the project $3 million.
